

Small Business Solutions

Cut monthly bills & improve customer service

Cost-effective, reliable communications are fundamental to the success of any business. Phonserve recognises this important need and offers an unbeatable solution to provide small businesses with access to high quality, low-cost Internet telephony.

“Calling our customers is far better than e-mailing them and [Phonserve] lets us do this at a realistic price that we can afford.”

Emily Dahan

“I’ve been using Phonserve for two months and it is by far the best mix of quality and price that I have found. Well done!”

Victor Rodriguez

- **Cut monthly expenditure** on phone bills by up to 90%
- **Improve customer service** - make contact with your customers more often, for less
- **Take control** - track call destination and cost in real-time

Why Phonserve?

1 Easy to Set up

Setting up and using Phonserve services in your business couldn't be simpler. You can easily provide your workforce with a separate long distance calling facility using a gateway or IP phone, or even connect a Phonserve certified device to your existing PBX or key system. The choice is yours!

2 Easy-to-Use

Our call management software is the envy of the industry and with it you can securely and profitably manage your calls with unrivalled simplicity. Make sure your call time is used affectively and monitor call costs in real time - ask your Phonserve Distributor for an OMNI fact sheet, or visit www.phonserve.com.

3 Industry-Leading Quality

The Phonserve brand is recognised throughout the world as offering the very best Internet phone call quality. Our vast infrastructure and expert technical team are second-to-none. You and your customers will hear the difference.

4 Great Value

Phonserve's call rates are always extremely competitive and we work daily to keep them that way. Visit our website (www.phonserve.com) for our latest rates.

5 A Scalable Solution

Run Phonserve on individual computer stations, or use a gateway device with several traditional phones attached. To make the deployment and integration of Phonserve services easy and cost-effective, we can supply you with a range of devices to suit your exact needs. Ask your Phonserve Distributor for a fact sheet about our certified devices, or visit www.phonserve.com.
